OBJECTIVE

Full-Stack Software Engineer with experience building scalable **web and mobile applications** using Next.js, React, React Native, and Node.js along with modern **cloud services**. A **fast learner** with a strong **research mindset**, leveraging **LLMs (GPT-4, Groq/Llama, Gemini)** and modern documentation to deliver **high-quality, user-focused solutions**.

PROJECTS

Cheer Champion – Gratitude Engagement Platform *Live Site* | *Play Store*

- Developed a **full-stack, cross-platform** gratitude-sharing application for web and mobile, enabling users to send, receive, celebrate and share Kudos
- Implemented **LLM-powered content enhancement** using **GPT-4, Groq/Llama, and Gemini** APIs for context-aware message refinement and automated generation of captions, hashtags, and dynamic social meta assets.
- Implemented **AI-assisted GIF recommendation**: semantic analysis of message text to suggest contextually relevant Giphy GIFs — users choose from pre-filtered, high-match options without searching
- Designed **multi-channel notification system** (Email via SMTP/Twilio, WhatsApp via **MSG91/AiSensy**, Web & App Push via **Firebase**) with automated reminders and retry queues
- Designed fully **automated reminders and reports** (e.g., Top Senders, Appreciation, No Activity, Monthly Summaries — 12+ types) with **retry queues** for failed deliveries and cron-based scheduling via **AWS Lambda**.
- Developed **role-based admin dashboard** with **CASL RBAC**, advanced **KPI** visualizations (charts, leaderboards), top senders/receivers, active vs inactive users, **MoM** growth and daily/weekly trends
- Implemented **secure authentication** (InstantDB Auth with custom + Google login), real-time **Cheer Wall** interactions, and **Sentry**-based error and performance monitoring across web and mobile.

Grah Chakra – Astro-Trading Insight Platform *Live Site* | *Play Store*

- Developed a **cross-platform astrology and market analysis** platform that combines **ancient Nakshatra insights** with **modern trading trends** to help users make informed investment decisions.
- Integrated personalized **Kundli interpretation** and consultations from **expert astrologers (20–30 yrs exp.)**, enabling detailed Grah, Nakshatra, Drishti, and Upgrah analysis and reporting.
- Built **dynamic dashboards** with ApexCharts visualizations, real-time **KPI tracking**, and **MoM growth** analytics, visualizing user insights across city and state levels.
- Implemented **multi-channel engagement** — WhatsApp (Msg91), Web & App Push (Firebase) with astrology-based events, video sessions, and social sharing.
- Designed a **role-based architecture** using **CASL** for dynamic UI and routing based on user roles, and integrated **Sentry** for error detection, monitoring, and performance analytics across web and mobile.

TaxpertAI – Modern CA Practice Management Platform

- Architected and developed a **full-stack platform** to digitize and streamline workflows between Chartered Accountants and clients, featuring real-time communication and intelligent automation.
- Built **secure multi-factor authentication** with OTP (email/SMS), Google OAuth, JWT-based sessions, and role-based access control (CA vs Client).
- Implemented **AI-powered intelligence** via integration of GPT-4, Groq (Llama), and Gemini APIs for document analysis, smart query resolution, and assistant features (architecture ready for production use).
- Developed core infrastructure for **real-time WhatsApp-like chat**, secure file sharing (documents/photos/videos), and notification system (in progress).
- Set up foundation for **payment integration** (multiple gateways), subscription management, invoice generation, GST calculator, and compliance tracking.

Brancy Cosmetic – E-commerce Website

- Developed a **fully functional e-commerce site** using **Next.js**, **Redux**, and **Medusa.js** tailored for cosmetic product shopping.
- Integrated **PayPal** for seamless and secure payment processing and used **React Hook Form** for robust form validation during checkout.
- Crafted a clean, **responsive UI** using **Tailwind CSS**, enabling smooth browsing and purchasing across all devices.
- Implemented full e-commerce functionality including **cart management**, **order processing**, and dynamic routing with **server-side rendering (SSR)**.

Personal Portfolio *Live Site*

- Architected and developed a compelling **personal portfolio website** using **HTML**, **CSS**, and **JavaScript**, prioritizing **intuitive design**, responsiveness, and user engagement. The site highlights key sections such as **Skills**, **Projects**, **Experience**, and **Education**, showcasing both professionalism and creativity.

Other Projects *GitHub*

Tic Tac Toe Game	*To-Do App*	*Admin Dashboard UI*
Weather App	*Expo App*	*Playwright Automation*

TECHNICAL SKILLS

Languages	:	**JavaScript (ES6+), TypeScript**
Frontend & UI	:	**React.js, Next.js, React Native, Redux, Tailwind CSS, ApexCharts, MUI**
Backend & APIs	:	**Node.js, Express.js, Supabase, InstantDB, Firebase, AWS Lambda**
Databases & Cloud	:	**MongoDB, Supabase, InstantDB, Firebase, AWS (Lambda, S3), GCP (Compute Engine, IAM, Cloud Functions)**
DevOps & Deployment	:	**Git, GitHub, GitHub Actions (CI/CD), Docker, Linux (CLI), AWS Amplify, Vercel, Netlify**
Automation & Developer Tools	:	**VS Code, Android Studio, Postman, Playwright, Puppeteer, Nodemailer, MSG91, AiSensy, Sentry, CASL (RBAC)**
AI & LLMs	:	**OpenAI (GPT-4), Groq, Gemini, LLaMA, Prompt Engineering, AI Content Generation**

EXPERIENCE

Junior Full-Stack Developer & React Native Developer May 2025 – Dec 2025
Quantum Infoway *Ahmedabad, India*

- Contributing to the development of innovative platforms like **Cheer Champion** and **Grah Chakra**, driving real-time engagement and data-driven user experiences.
- Building scalable, full-stack applications using **Next.js**, **React Native**, **Node.js**, **InstantDB**, and **AWS Lambda** with seamless API integrations and cloud-based deployment.
- Integrated **AI-driven content**, **astrological insights**, and **multi-channel communication systems** (Email, WhatsApp, Push) to enhance personalization and engagement.
- Assisted with **deployment workflows**, environment configuration, and basic **CI/CD automation**, while monitoring production systems using **Sentry**, cloud dashboards and **DevOps workflows**.

GCP Cloud Engineer Intern Feb 2025 – Apr 2025
DC Info Tech Pvt. Ltd. (Authorized Google Cloud Partner) *Remote – Palghar, Maharashtra*

- Completed intensive **GCP Cloud Fundamentals** training and hands-on internship, focusing on cloud architecture, resource deployment, and DevOps integration.
- Worked on real-world cloud projects using **Google Cloud Platform (GCP)** — including Compute Engine, Cloud Functions, Cloud Storage, and IAM configuration.
- Implemented scalable and cost-optimized cloud environments, integrating GCP services with web applications via APIs and CI/CD workflows.

Freelance Web Developer Aug 2024 – Sep 2024
Independent Client (via Network) *Remote*

- Developed a **full-stack web application prototype**, implementing frontend UI, backend logic, and API integration based on client requirements.
- Delivered **two frontend websites using HTML, CSS, and JavaScript**, prepared for **WordPress integration** with clean and reusable code.
- Handled performance optimization, cross-browser compatibility, and complete source-code handover with documentation.

Full-Stack & React Native Developer Aug 2023 – Jul 2024
The Special Character Pvt. Ltd. *Ahmedabad, India*

- Worked on **production-grade web and mobile applications** for client projects in a team environment.
- Developed responsive and dynamic web interfaces using **React.js** and **Next.js**.
- Implemented mobile features using **React Native**, including navigation, API integration, and performance optimization.
- Built backend APIs using **Node.js** and **Express.js**, supporting authentication and role-based access.
- Collaborated with designers and senior developers through code reviews, debugging, and agile delivery cycles.

Web Developer Intern (React.js) Jan 2023 – Jun 2023
BrainyBeam Info-Tech Pvt. Ltd. *Ahmedabad, India*

- Developed frontend features using **React.js**, **HTML5**, **CSS3**, and **JavaScript (ES6+)**, focusing on building reusable UI components and responsive, user-friendly layouts.
- **Collaborated** closely with senior developers to contribute to real-world application architecture, code reviews, and project workflows.
- Managed version control with **Git**, participated in debugging, and resolved UI issues to ensure high-quality deliverables.

EDUCATION

Bachelor of Engineering in Information Technology Oct 2020 - Jul 2024
Shankersinh Vaghela Bapu Institute of Technology, Gandhinagar, Gujarat

H.S.C March - 2020
Shree Sarasvati Sec, Higher Sec. Vidhyamandir, Kukarwada, Vijapur, Gujarat

CERTIFICATIONS & ACHIEVEMENTS

- Participated in **"Hackathon"** – University Level
- Participated in **"Website Development"** – University level
- **"Website Development"** – Built a stunning and responsive website
